1. We frequently think of things at the exact same time.
2. Through our discussions, we often develop a joint perspective.
3. We typically share the same thoughts and feelings about things.
4. Events feel more real when we experience them together.
5. The way we think has become more similar over time.
6. We often anticipate what the other is about to say.
7. We are more certain of the way we perceive things when we are together.
8. We often feel like we have created our own reality.

You can compute SR-G by taking the mean of all 8 items.
